Dear Ms. Sotoudeh,

every now and then your name and your story are mentioned in the news and media around here to make people aware of your situation.

This letter is a sign that your commitment for human rights finds great respect and appreciation internationally and that the world hasn't forgotten you.

It is a shame of your regime what happens with you.

I hope you will be released and reunited with your family and loved one soon. Stay strong.

All the best from Bavaria. I would like to visit you, you are a hero.

Regards
